

Erica Fu – Product Designer

New York, NY

ericafu.me/ | ericawfu@gmail.com | linkedin.com/in/ericawfu/

Education

Carnegie Mellon University – B.S. in Human-Computer Interaction + Information Systems May 2024

- Minors: Design, Computer Science, Soft Technology, GPA: 3.88/4.0, Dean's List 8 semesters
- Relevant coursework: Human-AI Interaction, Design for Service, User-Centered Research and Evaluation

Experience

JPMorganChase – UX Designer July 2024 – present

- Led end-to-end design and research for AI-powered products, reducing reporting work by 55%, migrating 36K+ articles to AI search, and enabling insights for 20+ product teams.
- Led usability testing with 9 specialists to uncover pain points and reveal critical trust issues, shifting product strategy from forced adoption to a value-focused rollout strategy.
- Shipped features to 7+ sprint teams, using prototypes, data-driven personas, and service blueprints to advocate for user needs amid technical constraints and align executives, product, engineering, operations, and external vendors in fast-moving environments.
- Led systems analysis across 6+ products to map workflows and users, identifying opportunities for consolidation while defining when to maintain distinct experiences based on user needs.

Equinix – UX Design Intern May – Aug 2023

- Analyzed product usage with Amplitude and FullStory analytics to identify UX friction and recommend improvements to encourage adoption of a modernized legacy workflow.
- Redesigned technical network connection workflows with improved information hierarchy and visualizations, enabling 100% retirement of legacy experiences.
- Built a scalable design system with Figma components and developer handoff files in collaboration with product, engineering, and design system teams, reducing design cycles by 50%, development cycles by 75% and achieving adoption by 4 cross-functional teams beyond the original scope.
- Conducted 15 think-aloud usability tests to validate the redesigned legacy flow and design system components, influencing the product roadmap to include subsequent A/B testing.

Zeno, CMU HCII – Founding UX Designer May 2022 – Dec 2023

- Led 0-to-1 design of ML evaluation tool enabling non-technical stakeholders to assess model performance through slice-based analysis; work received Mozilla funding and was published at CHI '23.
- Conducted competitive analysis of data filtering strategies, expert interviews with ML practitioners, and usability testing to iteratively craft and validate user flows.

Leadership

Design for America at CMU – President Sept 2020 – May 2024

- Led 18 project teams, partnering with nonprofits and academia to tackle social-impact challenges using human-centered design; grew the organization from 5 exec members to 50+ members annually.
- Created and delivered curriculum and hands-on project experience on design thinking; shared resources with national DFA organization supporting 30 universities.
- Directed 3 years of ImpactCMU by managing marketing, design, event website development, project coordination, and event planning, doubling projects, growing attendance to 150+, and amplifying visibility and community engagement of social good initiatives.
